Li	Lightning Protection Liquid Level Sensor XY	'-LS200
Ту	ypical Feature	
	With Stainless steel 304 shell and 316L diaphragm	
	With 4-Digits LED Display.	111111
	☐ Measurement Range 0~200 Meter	
	Accuracy level: 0.25% FS; 0.5%FS	**
	Power Supply 9~32VDC, Typical 24VDC	
	☐ Operating temperature -20°C ~ 80°C	
_		

Ту	oical Feature
	With Stainless steel 304 shell and 316L diaphragm
	With 4-Digits LED Display.
	Measurement Range 0~200 Meter
	Accuracy level: 0.25% FS; 0.5%FS
	Power Supply 9~32VDC, Typical 24VDC
	Operating temperature -20°C ~ 80°C
П	With precision tomporature compensation

With precision temperature compensation ☐ With Multiple lightning protection 10KV 5KA

☐ With protection for Anti-Surge, Over-Voltage, Over-Current and Reversed Polarity

XY-LS200 is a Lightning Protection Liquid Level Sensor, the Lightning Protection Liquid Level Sensor is based on the principle of hydrostatics and specially designed Anti-Electrical surge to avoid lightning when measuring outdoor water depth, it has high-performance isolated sensitive components and precision temperature compensation technology to converts the static pressure into electrical signal, then converts these signals to standard electronical signal output.

They have excellent circuit design to suitable liquid level measurement, such as Anti-Surge, Over-Voltage, Over-Current and Reversed Polarity Protection; with Anti-Electromagnetic Interference function to ensure the output single stably in complex electromagnetic environment.

The XY-LS200 Lightning Protection Liquid Level Sensor has stainless steel 304 shell and IP68 protection to against the harsh service environment, at the same time we test its overload and shock resistance performance in critical test procedure.

It can be wieldy powered by 9-32VDC power supply and output 4-20mA and 0-5VDC single is optional. Accuracy ±0.25%FS; ±0.5%FS. Can be used to measure liquid level for Reservoirs, river, sewage treatment, urban water supply, water tank, ocean level and others field need liquid level measurement.

Suggested Applications

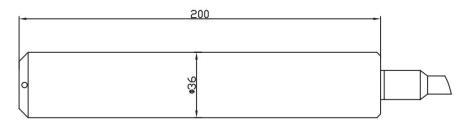

- 🖶 🛮 Fire protection water net
- 🖊 Heating system
- 🚣 🏻 Marine liquid level
- Sewage treatment
- 🖶 Smart water management system
- 🖶 Medical equipment
- Reservoirs and Ocean level
- Civil pool and Water tank
- Analysis level of river, lake, and pool
- Urban water supply

More details for XY-LS200, please contact us.

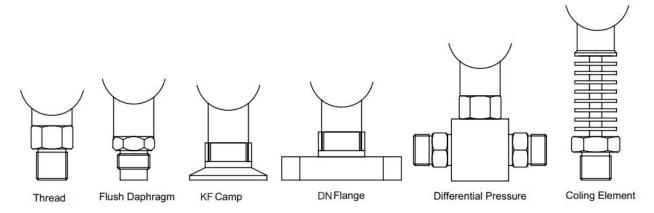

Specification

Model	XY-LS100
Range	0~1···2···5···8···10···100···200M H ₂ O
Overload Capacity	200%
Measurement Medium	Oil or other Liquid with Compatibility of SS 304 or 316
Supporting	2088 Industrial shell
Accuracy Level	0.25% FS;0.5% FS
Long-Term Stability/Year	Typical: ±0.1% FS;
Zero Temperature drift	Typical: ±0.02%FS/°C; Maximum ±0.05%FS/°C
Sensitivity Temperature drift	Typical: ±0.02%FS/°C; Maximum ±0.05%FS/°C
Output	4-20mA
Transmission Distance	≥1KM(supply 24V)
Electric protection	Reverse, Excess Voltage, and Anti-Lightning Protection
Display	4 digits LED
Operating temperature	-20~85°C
Compensation	-20~70°C
Power Supply	9-32 VDC (Typical 24V)
Protection Grade	IP68
